½ Grilled Cheese and Fries 4.89

Frequently Asked Questions History MoonCricket

The building was constructed in 1912, originally housing Cappleman Brothers Grocery Store. The heart pine floors, pressed tin ceiling & plaster over brick walls are all original. The skylight and the transom lights (the small squares of glass over the front windows) are also original; those two features brought in enough natural light in the daytime so artificial lighting wasn't necessary. They were going "Green" 100 years before their time! Hanging from the ceiling is a twenty five foot diameter propeller that came from a prototype blimp. Over the front windows hang hundred year old gothic stained glass windows from the old Oakland Presbyterian Church which was replaced in 1971. The bar and booth tops are hard maple, made from bowling alley lanes salvaged from the decommissioned Orlando Naval Training Center (now the location of Baldwin Park). All the heavy oak throughout the building and exterior came from native oak trees cut down here in Winter Garden. The trunks were taken to a saw mill in Eustis to be cut into lumber, then dried. The rough lumber was brought back to Winter Garden and milled into decorative moldings and trim. Light fixtures as well as brass railings came from Church Street's famous Rosie O'Grady's. We are proud to boast MoonCricket has been voted one of Orlando's "Best Beer Selections" by Orlando Magazine in 2010 and again for 2011. Don't forget "99 Beers Get Your Name on the Wall", so ask your server for details. **Our customers supply the good times.**
